Frontend Development: JavaScript (ES6+) | React.js | Next.js | NodeJS | TypeScript | HTML5 | CSS3 | Tailwind CSS | REST APIs | React Hooks & Context API | Git/GitHub

Tools & Platforms: WordPress | WooCommerce | AIPRM SEO | Agile/Scrum | Version Control (Git)

Soft Skills: Problem Solving | Cross-Team Collaboration | Attention to Detail | Time Management | Clear Technical Communication

WORK EXPERIENCE

IT Support Officer | Ch Rehmat Ali Hospital

Jan 2025 – Present | Lahore, Pakistan

- Deliver first- and second-line IT support across hospital departments, diagnosing and resolving hardware, software, and network issues to minimize downtime for clinical and administrative staff.
- Install, configure, and maintain Windows OS environments on desktop computers and peripheral devices, ensuring consistent uptime and compliance with hospital IT standards.
- Administer and support the Hospital Management System (HMS), maintaining uninterrupted access for daily users across patient registration, billing, and records departments.
- Configure and troubleshoot networked printers and shared devices, reducing recurring service tickets and improving turnaround time for staff support requests.

Frontend Developer Intern | Vu360Solutions

Mar 2023 – Aug 2023 | Lahore, Pakistan

- Built responsive, mobile-first UI components for the **HisabRakh** web application using HTML, CSS, JavaScript, and React.js, ensuring consistent cross-browser rendering.
- Collaborated with a team to develop scalable components using Next.js and TypeScript, improving routing performance and long-term code maintainability.
- Implemented state management with React Hooks and Context API, improving data handling and overall UX responsiveness across the application.
- Participated in daily standups, sprint reviews, and peer code reviews within an Agile workflow, using Git/GitHub for version control and collaborative development.

WordPress Developer Intern | Vu360Solutions

Sep 2023 – Feb 2024 | Lahore, Pakistan

- Built and managed SharjahSports.pk, a fully functional e-commerce site, using WordPress, the WoodMart theme, and WooCommerce, ensuring responsive design across devices.
- Improved product search visibility and page load speed by implementing on-page SEO with AIPRM and image optimization plugins across [X]+ product listings.
- Customized WooCommerce functionality and integrated secure payment gateways, streamlining checkout and supporting end-to-end product management workflows.

PROJECTS

AI-Based Autism Therapy Tool

- Designed an AI-assisted therapy tool to support treatment planning for individuals with Autism Spectrum Disorder (ASD), aimed at improving patient engagement and outcomes.
- Built and trained machine learning models to analyze behavioral data and predict therapeutic outcomes, validating effectiveness through A/B testing and user trials before deployment.
- Authored technical documentation and progress reports to track milestones and ensure best practices in responsible AI deployment for healthcare.

EDUCATION

Bachelor of Science in Computer Science

Lahore Garrison University, Lahore, Pakistan

Nov 2020 – Jan 2025
